Molekularbiologische Untersuchungen zur funktionellen Genomanalyse des humanpathogenen Pilzes *Aspergillus fumigatus*

Publications

Noßmann M, Pieper J, Hillmann F, Brakhage AA, Munder T (2018) Generation of an arginine-tRNA-adapted Saccharomyces cerevisiae strain for effective heterologous protein expression. *Curr Genet* 64(3), 589-598. Details PubMed

Nossmann M, Boysen JM, Krüger T, König CC, Hillmann F, Munder T, Brakhage AA (2018) Yeast two-hybrid screening reveals a dual function for the histone acetyltransferase GcnE by controlling glutamine synthesis and development in *Aspergillus fumigatus*. *Curr Genet* 65(2), 523-538. Details PubMed

Supervisor

Falk Hillmann

Start of PhD

January 1, 2016

Doctoral Disputation

December 5, 2018
