Prof. Dr. Maria Mittag

Phone: +49 3641 9-49201 Email: m.mittag@uni-jena.de Website: https://www.uni-jena.de/Professur_fuer_Allgemeine_Botanik.html

Projects

Former Projects

Molecular dissection of early signaling response in the green alga *Chlamydomonas reinhardtii* under the influence of biotic and abiotic factors
Details

The entrainment of the circadian clock by light-dark and temperature cycles: Functional analysis of components of involved signaling pathways
Details

Unraveling the (bio)chemical processes involved in phytoplankton-virus interactions
Details

Functional characterization of molecular components of the circadian clock of the green alga *Chlamydomonas reinhardtii*
Details

Exploring the Role of Light in Microalgal-Pathogen Interactions
Details
