

Workshop: Job & Career Opportunities in Industry and beyond

Interactive Workshop

Job & Career opportunities in Industry and beyond

Industry offers scientific researchers a much higher variety of jobs and career opportunities as the academic environment does. However, can you tell how life in industry is about? Is Post-Doc work experience an advantage or disadvantage? What are differences in jobs and career opportunities between Global Players, midsize companies and Start-ups?

Your Personal Job Springboard

How could your personal strategy for your career look like and how can you successfully apply?

Your Coach

Dr. Jan Heise, former Post-Doc, now CEO of the biotech company NH DyeAGNOSTICS GmbH and Life Science Business Coach introduces the job world "outside academia" and offers many recommendations and support for your personal career.
