

Running „Corona Style“

Firmen laufen weiter

April 29, 2020

Close to 20 running enthusiasts from the Leibniz-HKI got outside for some exercise even in times of working from home and emergency operation - on their own, but as a team. From April 20-24, 2020, they participated in the nation-wide event firmen-laufen-weiter.de. Each member of the team ran an individual 6 km course (alone and according to the current legal regulations). We appreciate the athletic achievements of our employees and hope that we can soon be active together again as a team.
